Barb Bancroft is a widely acclaimed nursing teacher who has taught courses on Advanced Pathophysiology, Pharmacology, and Physical Assessment to both graduate and undergraduate students. Also certified as a Pediatric Nurse Practitioner, she has held faculty positions at the University of Virginia, the University of Arkansas, Lovella University of Michigan, and St. Xavier University of Chicago. Barb is known for her extensive knowledge of pathophysiology and as one of the most dynamic nursing speakers in North America today. Delivering her material with equal parts of evidence-based practice, practical application, and humour, she has taught numerous seminars on clinical and health maintenance topics to healthcare professionals, including the Association for Practitioners for Infection Control, The Emergency Nurses Association, the American Academy of Nurse Practitioners, and more.
